# 1. Variable width drawing

Needs:

-Single cursor
-Width increase with flex increase
-On & off the screen states

2. Colour Picker

Needs:

-Dual cursor (?)
-Saturation / Brightness increase on flex increase
-Ability to actually select colours (rainbow gradient or an image?)

3. Radial Menu (circles)

Needs:

-Dual cursor
-Direction change on flexion
-Overlap events and transitions
-Click events
- Have a menu item class where an image ref is passed through
